

AMERICAN INDOOR AIR QUALITY COUNCIL

Re-certification Requirements Table

The American IAQ Council requires all certificants to document their professional development during the two-year certification period. Such activities are applied as "re-certification credits" or "RCs."

Certifications accredited by CESB as Engineering-Related require 40 RCs. Certifications accredited by CESB as Engineering-Technician require 24 RCs. Beginning January 1, 2008, all new certifications will require 40 RCs. Certificants applying for re-certification before January 2010 can find the required number of RCs on the following table.

Any re-certification credit can be applied simultaneously to all Council certifications held by a single individual.

Recertifying	Year	CIEC	CMC	CMI	CIE	CMRS	CMR	CRMI	CIAQM
April	2007	40	26	24	24	24	24	24	24
